Poor communication costs lives and money. Good communication saves time and tears. Good communication is a requirement for most roles and we've become increasingly reliant on it to progress our careers and get our jobs done. Learn how to build better relationships and communicate effectively whether negotiating, pitching, giving and receiving feedback or networking.

- dialogue, discussion & chat
- the psychology of power
- victims, rescuers and persecutors
- group genius
- empathy versus sympathy
- the pitfalls of poor communication
- a process for clearer communication
- the rewards of positive influence
